

Anviloy 4100 Tungsten Alloy

We can offer many tungsten alloy standards within the standard size or we can design and manufacture a mould especially for you. Since different tungsten alloy standards have different applications, we can also make products of tungsten alloy standards as special properties of tungsten heavy alloy. Besides, we can manufacture products of tungsten alloy standardse qual to Anviloy 4100 products.

Products	Normal Composition	Density(g/cm3)	UTS(N/mm2)	Hardness (HRC)	Applications
Anviloy 1150	90%W4Mo4Ni2Fe	17.25	965	34	
Anviloy 4200	93%WNiFeMo	17.8	885	30	Extrusion Dies
Anviloy 4000	90%WNiFeMo	17.3	960	32	Die Casting Tools,Extrusion Tools
Anviloy 4100	86%WNiFeMo	16.7	1075	36	Die Casting Tools

Anviloy 4100 Heat resistance: After carbon, tungsten has the highest melting point of all elements of 3422 °C. Anviloy 4100 has a boiling point of around 5,700 °C. With these properties, the metal can withstand high temperatures and smelting and in addition has a very low coefficient of thermal expansion.

Different products of tungsten alloy standards have different applications and properties. We can provide various kinds of Anviloy 4100 tungsten alloy standards according to your requirements. Anviloy 4100 tungsten alloy can be designed and

SHANGHAI KATALOR ENTERPRISES CO., LTD.

Tel:0086-21-61182423 Website:www.katalor.com

machined in to different tungsten alloy standards.

Katalor enterprises is the professional Chinese Anviloy 4100 Tungsten Alloy supplier .We keep a lot Anviloy 4100 Tungsten Alloy in our warehouse. We promise the competitive price in order to enlarge our oversea market. If you want to know Anviloy 4100 Tungsten Alloy price,please be free to contact us.
